Parknasilla Resort & Spa is fully committed to fostering an inclusive, equitable and fair working environment for all employees, regardless of gender. We do not distinguish between male and female employees in relation to recruitment, roles, responsibilities or opportunities within the hotel.

Our remuneration structure is based on a fair and consistent pay grading system, which is applied objectively to ensure equality and fairness across the organisation. While certain senior positions may naturally attract higher levels of remuneration, these differences are determined solely by the responsibilities, seniority and requirements of the role itself, rather than the gender or personal characteristics of the individual holding the position.

Parknasilla remains committed to ensuring that all employees are treated fairly and equitably, with equal value placed on the contribution of every member of our team.
